REACH-OUT PROJECT

3RD NEWSLETTER

MAY 2018

A QUICK OVERVIEW

The REACH-OUT Project aims to develop and test an innovative training curriculum for youth workers to support them in reaching out to young migrants and refugees, while increasing their competences and fostering their professional development.

REACH-OUT project partnership is composed of 6 institutions from 4 countries.

In order to collect feedback from the target group of youth workers regarding the second output of the project “Training Curriculum and Materials”, and also to revise and finalize it, partners have organized Local Testing Sessions in February 2018.
Total 52 youth workers have participated in these Local Testing Sessions.

Local Testings

Testimonies - JaW

Gerhard Konrad, Youth Worker

I found the Local Testing Session very interesting. The 2 days were very lively. All participants were able to contribute well with their concrete professional experiences, the exchange was very enriching. The topic of work with young people with a migration background could thus be considered and analyzed in a very complex way. With the help of the prepared exercises, the complexity of the topic could be dealt with very well. Furthermore, solution variants could also be discussed in difficult situations.

I have a very positive memory of this exchange.

Joint Staff Training

20 staff members from partner organizations participated at Short Term Joint Staff Training event of the REACH OUT.
The staff of partner organizations' have participated in an interactive 5-days training event and had a chance to exchange ideas and experiences in the area of migration and youth.

Sigrid Fischer, Youth Worker

"The theoretical input and the testing of different methods are very valuable for me, because I can always incorporate this into my daily work. In summary, one can say that the time in Turkey is very profitable for me as a person but also as a youth worker".

The REACH-OUT partnership is currently working on the development of O3 – the Trainers Handbook. This will be a useful resource providing tools and tips for youth workers to develop trainings and initiatives addressed to other youth workers and/or to young migrants and refugees.

DEVELOPMENT PROCESS

The Training Handbook will be connected with O2 “Training Curriculum and Materials” and will contain useful tips in working with young migrants & refugees, training resources, methods & techniques, methodologies on how to analyze training needs and learning styles and suggestions on how to develop training materials.
